Tech IOSH
PGC
BSc (Hons)

Key Skills: Professional and personable approach, with excellent communication and interpersonal skills.
Calm and confident manner.
Excellent Construction knowledge coupled with H&S and Design management experience.
Hands on management approach and able to build excellent rapport with clients, directors, designers and senior managers.

Career Summary:

Green Hat Consulting was set up in 2013 by Andrew to address a requirement for bespoke health and safety services within the construction industry.

Andrew has since worked in a strategic role developing Green Hat Consulting into a successful multi-disciplined support services company.

As an experienced industry professional with more than 25 years of working in senior roles with major contractors, Andrew brings his practical experience to Green Hat clients who appreciate his approach and depth of knowledge in understanding their requirements. Andrew has worked on a number of major projects including the Millennium Stadium in Cardiff. He was an award-winning project manager as a recipient of an International Safety Award (2013) for Monmouth Boys School. Recognised nationally as the highest performing site out of one hundred and sixty-seven sites for Health, Safety and the Environment whilst working with Vinci Construction in 2011. He also won the Considerate Constructors silver award in 2005, 2012 & 2013.

About Andrew:

Andrew is a passionate gardener in his spare time, who loves nothing more than spending time cutting the grass after deadheading his roses and staking a few flopping herbaceous perennials! Andrew is a qualified photographer and a Member of the Association of Professional Photography and enjoys snapping the local landscapes around Gower. As a keen Star Wars fan, Andrew's secret ambition is to become a Jedi Knight and live on Coruscant!
